

Installation Instructions

■ Introduction

Thank you for purchasing MITSUBISHI Integrated FA Software, MELSOFT series.

This document explains how to install and uninstall iQ Works (SW1DNC-IQWK-E□). Please read carefully before installing the product to your personal computer.

⚠ Notice

- Reprinting or reproducing the part or all of the contents of this document in any form for any purpose without the permission of Mitsubishi Electric Corporation is strictly forbidden.
- Although we have made the utmost effort to follow the revisions of the software and hardware, in some cases, unsynchronized matter may occur.
- The information in this document may be subject to change without notice.

Installation

Install iQ Works to the personal computer.

■ Confirm before installation

- Log on to the personal computer as a user having the "Administrator" (computer administration) privilege.
- Close all the applications running under Microsoft® Windows® Operating System before installation. If the product is installed while other applications are running, it may not operate normally.

Precautions

- If the installation of the product is suspended, MELSOFT Navigator cannot be uninstalled. Uninstall MELSOFT Navigator after completing the installation of iQ Works.
- If the cancel button is clicked during the installation, the installation status becomes suspension process. In this case, insert the CD-ROM (Disk 1), and restart the installation by following the on-screen instructions.

Point

- Product ID is written on the "License agreement" included with the product. Enter the 12-digit number divided into 3 and 9 digits.
